VatOil SynMat CVT

Description

SynMat CVT is an advanced, synthetic ATF. This high performance automatic transmission oil has the following properties:

- High viscosity index
- Very good lubrication properties
- Excellent shear stability
- Neutral to seal agents used
- Friction performance optimized for CVT transmission
- Very low pouring point
- Excellent protection against foaming

Application

SynMat CVT is suitable for continuously variable automatic transmissions. It is suitable for use in belt drive CVT's as well as in chain drives. Always check the product recommendation database for the right application.
