### SynTrag Marine 75W-90

#### Description

SynTrag Marine 75W-90 is a synthetic, blue-coloured transmission oil. The product has been specially developed for outboard transmissions, tailpieces and Z-drive transmission systems. During the development of the special package of additives, specific attention was paid to the 'wet' conditions in which transmission systems used in watersports are required to operate. When combined with special 'Extreme Pressure' additives, this resulted in a premium product with the following properties, amongst others:

- High resistance to oxidation, extending the service life of the oil
- Excellent protection against rust and corrosion
- Outstanding moisture resistance
- A low pour point
- Excellent protection against wear
- High resistance to foaming

#### Application

SynTrag Marine 75W-90 is a specially developed transmission oil for transmissions used in watersports. Examples include tailpieces for outboard motors and z-drive systems. Always consult the advisory database for optimal use.

#### Specifications

API GL-4/5

MIL-L-2105

#### Typicals

Density at 15 °C, kg/l	0,879
Viscosity 40 °C, mm <sup>2</sup> /s	83,00
Viscosity 100 °C, mm <sup>2</sup> /s	15,50
Viscosity Index	188
Flash Point COC, °C	180
Pour Point, °C	-48

#### Available packagings

50646  
1 L bottle

50650  
20 L can

50651  
60 L drum

50652  
210 L drum
