### VatOil MultiCool -26

#### Description

MultiCool -26 is a classic coolant, based on monoethylene glycol and softened water. It is supplemented with additives to achieve the following properties:

- Effective protection of all metals that are used in the engine and cooling system
- Does not affect gaskets and hoses
- Good resistance to foaming
- Protection of aluminium cylinder heads

#### Application

MultiCool -26 can be used throughout the year in the cooling systems of petrol and diesel engines. MultiCool -26 should be used undiluted and will then provide protection down to -26 °C.

#### Specifications

BS 6580:2010

#### Typicals

Density at 15 °C, kg/l	1,056
pH - value	8,2
Reserve alkalinity, pH	8,3
Crystallizationpoint, °C	-26

#### Available packagings

50694  
1 L bottle

50695  
5 L can

50753  
20 L can

50754  
60 L drum

50755  
210 L drum
