VatOil MultiCool -26

Description

MultiCool -26 is a classic coolant, based on monoethylene glycol and softened water. It is supplemented with additives to achieve the following properties:

- Effective protection of all metals that are used in the engine and cooling system
- Does not affect gaskets and hoses
- Good resistance to foaming
- Protection of aluminium cylinder heads

Application

MultiCool -26 can be used throughout the year in the cooling systems of petrol and diesel engines. MultiCool -26 should be used undiluted and will then provide protection down to -26 °C.

Specifications

BS 6580:2010

Typicals

Density at 15 °C, kg/l 1,056

pH - value 8,2

Reserve alkalinity, pH 8,3

Crystallizationpoint, °C -26

Available packagings

50694
1 L bottle

50695
5 L can

50753
20 L can

50754
60 L drum

50755
210 L drum
