### VatOil SynGold ECO 5W-30

#### Description

SynGold ECO 5W-30 is a modern, fuel-saving, synthetic motor oil, developed in accordance with the latest Low SAPS technologies for use in cars with particulate filters and/or catalytic converters. It is supplemented with specially selected, synthetic base oils and advanced additives to achieve the following properties:

- Fuel saving
- Reduced formation of combustion residues due to lower SAPS content
- Extended service life of particulate filters and catalytic converters
- A smooth cold start
- A protective lubricant film at high operating temperatures
- Extended oil change intervals
- Excellent dispersion and detergency
- Very high resistance to wear, corrosion and foaming

#### Application

SynGold ECO 5W-30 is a fuel-saving, synthetic motor oil for the latest generation of cars with a particulate filter and/or catalytic converter. The product is also highly suitable for the latest generation of Ford cars and vans equipped with modern three-way catalytic converters and particulate filters. It can be used if the Ford specification M2C-913-D is recommended and in cases in which one of the older Ford M2C-913-C, M2C-913-B or M2C-913-A specifications is required.
