### Kroon-Oil Coolant -38 Organic NF

#### Description

Coolant -38 NF is a universal, silicate-free, organic coolant with a neutral, light-yellow colour. The product is based on monoethylene glycol and softened water. It is supplemented with special, organic additives to achieve the following properties:

- Outstanding protection of all metals that are used in modern engines and cooling systems
- Does not affect gaskets and hoses
- Very effective resistance to foam formation
- Outstanding protection of aluminium cylinder heads

#### Application

Coolant -38 NF can be used throughout the year in the cooling systems of modern petrol and diesel engines. The product should be used undiluted and will then provide protection down to -38 °C. Coolant -38 NF allows a maximum replacement interval of 3 years to be applied.

#### Specifications

MB 326.3

Opel/GM 6277M

Ford WSS-M97B44-D

VW TL-774F

#### Typicals

Colour	GEEL
Density at 15 °C, kg/l	1,080
Flash Point COC, °C	111

#### Available packagings

04212  
1 L bottle

04317  
5 L can

14041  
20 L can

14109  
60 L drum

14209  
208 L drum

31151  
999 L IBC
