### Chainlube FGS 220

#### Description

Chainlube FGS 220 is a premium, fully synthetic chain lubricant that has been specially developed for use in the pharmaceutical and food industry. Chainlube FGS 220 is based on a mix of specially selected, food-safe, fully synthetic, ester base oils and advanced additives in order to achieve the following properties:

- Excellent oxidation stability
- Superior thermal resistance
- Outstanding shear stability
- Water repellent
- Effective against rust and corrosion
- A long-life lubricant film
- Economic in use
- No coating and/or (carbon) deposits are formed
- Non-toxic

#### Application

Chainlube FGS 220 is a food-safe, fully synthetic chain lubricant that has been approved for use in the pharmaceutical and food industry. The product is recommended for oven chains, transport chains, hoisting chains (e.g. fork-lift trucks) and chain drives. Chainlube FGS 220 is H1 registered and is therefore ideally suited to situations in which incidental contact with food might occur.

#### Typicals

Density at 15 °C, kg/l	0,953
Viscosity 40 °C, mm <sup>2</sup> /s	216,30
Viscosity 100 °C, mm <sup>2</sup> /s	26,10
Viscosity Index	153
Flash Point COC, °C	252
Pour Point, °C	-36
Acid number, mgKOH/g	0,76

#### Available packagings

35368  
20 L can

35370  
208 L drum
