Tornado

Description

Tornado is a 2-stroke (petrol) motor oil that is 100% synthetic. Special 2-stroke additives provide the product with the following properties:

- Outstanding lubrication of all engine parts thanks to effective adhesion. Wear is reduced and the service life of the engine is extended
- Powerful detergency, the combustion chamber and the exhaust ports remain clear of deposits, even at high temperatures
- Almost complete combustion, the spark plugs remain clean, ensuring optimal performance of the engine
- Excellent resistance to corrosion and wear
- Limited formation of smoke and odour
- Can also be mixed with unleaded petrol

Application

Tornado is suitable for high speed, heavy-duty air-cooled 2-stroke engines in mopeds, motorcycles, scooters, chainsaws, lawnmowers, etc. Also suitable for 2-stroke engines with water cooling (radiator cooling). Tornado is often used at a mixing ratio of 1 part oil to 50 parts fuel, or the mixing ratio required by the engine manufacturer. Tornado is a fully-synthetic self-mixing motor oil that may also be used in automatic lubrication systems.

Specifications

API TC

JASO FD

Husqvarna

ISO-L-EGD

Piaggio Hexagon

Typicals

Density at 15 °C, kg/l 0,878

Viscosity 40 °C, mm²/s 70,50

Viscosity 100 °C, mm²/s 11,00

Viscosity Index 147

Flash Point PM, °C 78

Pour Point, °C -45

Total Base Number, mgKOH/g 2,9

Sulphate Ash, % 0,12

Available packagings
