Ultimate Racing Brake Fluid

Description

Ultimate Racing Brake Fluid is a highly exclusive brake fluid. The extremely high dry and wet boiling point prevents gas bubble formation and brake fade. Even under extreme braking forces. The product eliminates the spongy feel in the brake lever and improves the reaction time. Ultimate Racing Brake Fluid has been specially developed for competition purposes and is also suitable for ABS systems. The high-grade formulation far exceeds the DOT 5.1 specification.

Application

Putoline Oil is a high-quality supplier of a wide range of lubricants and maintenance products. We only supply products for motorised two-wheelers and that makes us unique! Our years of experience, combined with continuous research results in the best price/quality ratio. Manufacturing our own products guarantees a consistently high quality. Putoline Oil, Driven by Technology!

Please refer to the advisory database for use of the correct product.

Specifications

FMVSS 116 DOT 4

SAE J1703/J1704

Typicals

Density at 15 °C, kg/l	1,081
Viscosity -40 °C, mm ² /s	1520
Viscosity 100 °C, mm ² /s	2,59
Boiling Point (reflux) , °C	328
Wet Boiling Point, °C	204
pH - value	7,1

Available packagings

74041

500 ml bottle

74286

20 L Bag in
Box

The data mentioned in this product information sheet is meant to enable the reader to orientate himself about the properties and possible applications of our products. Although this overview is composed with all possible care on the stated date, the compiler does not accept any liability for damages caused by incompleteness and/or inaccuracies in this information, especially when these are caused by obvious typing errors. The terms of delivery of the supplier apply to all product supplies. The reader is advised, especially for critical applications, to make the final product choice in consultation with the supplier.
