### Fuel Conditioner

#### Description

Fuel Conditioner is an advanced protection product for fuel systems. It is harmless to any catalytic converter and has no components that contain chlorine. Fuel Conditioner has the following special properties:

- Dissolves deposits in the carburettor, injector(s), valves and combustion chamber
  - Neutralises condensed water to prevent precipitation in the fuel tank
  - Restores power
  - Reduces fuel consumption
  - Ensures a more consistent engine idle speed
  - Reduces the emission of harmful exhaust gases
  - The engine starts more easily
  - Prevents the fuel system freezing
- Instructions for use: Add the entire contents of this bottle to 25 litres of fuel. Add one bottle on the next two successive fuel stops. Then every 5000 km.

#### Application

Putoline Oil is a high-quality supplier of a wide range of lubricants and maintenance products. We only supply products for motorised two-wheelers and that makes us unique! Our years of experience, combined with continuous research results in the best price/quality ratio. Manufacturing our own products guarantees a consistently high quality. Putoline Oil, Driven by Technology!

Please refer to the advisory database for use of the correct product.
