### Putoline Drytec Race Chainlube

#### Description

Drytec is a special PTFE chain lubricant. This dry and well-adhering product penetrates deep inside the chain. It leaves a clear and non-sticky protective layer meaning that dirt and salt cannot stick to the chain. Regular use reduces friction, preventing premature wear, and it is clean in use. Drytec is suitable for standard, O-/X-/Z-ring chains on road and race motorcycles.

Instructions for use:

- Shake well before use
- Spray a thin layer onto the chain
- Allow to dry

#### Application

Putoline Oil is a high-quality supplier of a wide range of lubricants and maintenance products. We only supply products for motorised two-wheelers and that makes us unique! Our years of experience, combined with continuous research results in the best price/quality ratio. Manufacturing our own products guarantees a consistently high quality. Putoline Oil, Driven by Technology!

Please refer to the advisory database for use of the correct product.
