Espadon ZC-3300

Description

Espadon ZC-3300 is a cutting oil based on refined High Grade base oils, supplemented with selected anti-mist, polar and chemically active 'anti weld' additives. Together with effective evaporation, Espadon ZC-3300 contributes to an improvement in the working environment during its entire service life. Thanks to its special formulation, Espadon ZC-3300 achieves the following properties:

- Chlorine-free
- Good 'Extreme Pressure' properties
- Does not affect machine varnishes and seals
- Low aromatic content
- Low formation of oil mist
- A low level of evaporation
- Good surface finish
- Can be used with all other Kroon-Oil machine oils

Application

Espadon ZC-3300 is a cutting oil used for processing carbon and low-alloy steels in a wide range of heavy machining processes in automatic processing centres. Furthermore, Espadon ZC-3300 can be used for cutting and grinding gear wheels and threaded spindles.

Please note!

Discolouration may occur when processing non-ferrous metals.

Typicals

Density at 15 °C, kg/l	0,876
Viscosity 40 °C, mm ² /s	31,50
Viscosity 100 °C, mm ² /s	5,36
Viscosity Index	103
Flash Point COC, °C	202
Pour Point, °C	-12
Total Base Number, mgKOH/g	0,1
Acid number, mgKOH/g	0,34

Available packagings

35694
20 L can

11166
60 L drum
