### VatOil SynMat DCT

#### Description

SynMat DCT is a synthetic transmission oil for dual clutch transmissions. This specially formulated product with superior characteristics has the following properties:

- Excellent oxidation stability
- Very good lubrication properties
- Outstanding resistance to wear
- High resistance against foaming
- Very low pouring point
- Excellent shear stability

#### Application

SynMat DCT has been specially developed for the new generation of High Tech DSG transmissions as used in a range of VAG models, along with an increasing number of models by other makes. Always consult the VatOil product advisory database for optimal use.
