TefTec DS

Description

TefTec DS is a technologically advanced lubricant. It contains a high concentration of PTFE, making it highly suitable for use in dry weather conditions. TefTec DS is highly dirt-repellent and has a good lubricating effect. It therefore provides good protection to bicycle components.

Application

TefTec DS is suitable for derailleur systems, chains, shifters, cables and other moving parts. Thoroughly clean any parts to be lubricated first using Kroon-Oil BioSol XT. Then apply TefTec DS and remove any surplus product with a lint-free cloth. Regular re-application prevents excessive wear. Shake well before use! Vanilla scented.
