TefTec WS

Description

TefTec WS is a technologically advanced lubricant. It contains a high concentration of PTFE, making it suitable for intensive use in wet weather conditions. TefTec WS reduces friction and is moisture and dirt-repellent. It also provides excellent adhesion, good lubrication and protection of the bicycle components.

Application

TefTec WS is suitable for derailleur systems, chains, shifters, cables and other moving parts. Thoroughly clean any parts to be lubricated first using Kroon-Oil BioSol XT. Then apply TefTec WS and remove any surplus product with a lint-free cloth. Regular re-application prevents excessive wear. Shake well before use! Vanilla scented.
