Kroon-Oil Inox G13

Description

Inox G13 is a cleaning agent that removes fingerprints and other stains quickly and effortlessly. The product is based on mineral oils and waxy components. By supplementing Inox G13 with selected additives, the following special properties are achieved:

- Outstanding cleaning properties thanks to special, active-surface substances
- Mild, neutral odour
- Ensures a well-maintained appearance of the items that have been treated
- Forms a thin, protective film that effectively acts to prevent the adhesion of new stains

Application

Inox G13 has been specially developed for cleaning stainless steel. As has frequently been seen in kitchens and factory buildings, stainless steel is susceptible to difficult to remove fingerprints. Grease spots and water stains may also occur. Inox G13 removes these stains extremely thoroughly, leaving the surface with a beautifully clean appearance.
