Kroon-Oil 1000+1 Universal

Description

1000 + 1 Universal is a moisture dispersant with special properties, developed in our own laboratory. The product has outstanding lubricating properties. Corrosion caused by moisture is the biggest threat to all metal parts and annually results in significant losses in the industrial sector, households and road traffic. 1000 + 1 Universal contains additives that disperse moisture and form a protective layer of 0.002 mm thickness on all surfaces treated. This extremely fine layer provides effective protection even in the pores of the metal.

Application

1000 + 1 Universal has so many properties that it really does have as many as 1000 + 1 uses! 1000 + 1 Universal can be used as:

- A moisture dispersant (e.g. car ignition)
- A penetrating oil (loosening rusted components)
- A metal protector (preserving degreased parts)
- A lubricant (clean lubrication of light mechanisms)
- A cleaning agent (cleaning contact points)
- An ignition spray (perfect electrical conductivity)

Typicals

Density at 15 °C, kg/l	0,824
Viscosity 40 °C, mm ² /s	2,54
Viscosity 100 °C, mm ² /s	1,12
Flash Point PM, °C	79
Pour Point, °C	-39
Acid number, mgKOH/g	5,31

Available packagings

35864
20 L pail

15101
60 L drum

32337
208 L drum
