### Kroon-Oil Antifreeze SP 11

#### Description

Antifreeze SP 11 is a premium, Long Life antifreeze for which a patented, nitrite-, amine- and phosphate-free technology with very powerful corrosion inhibitors has been used. With this technology, Antifreeze SP 11 provides longer lasting protection against corrosion than standard antifreeze, so that vulnerable parts such as radiators, water pumps and seals will have a longer service life. Special additives prevent sludge and deposits forming in the radiator, ensuring optimal cooling, even in the long term. Antifreeze SP 11 is specifically designed for use in engines/radiators made from light metals such as aluminium, magnesium or their alloys.

#### Application

Antifreeze SP 11 is a blue/green, antifreeze for use in a range of models from Mercedes, BMW, Opel and Saab and in a range of models from the VAG group (VW/Audi/Porsche/Seat/Skoda) that require G11 quality. By using powerful corrosion inhibitors, Antifreeze SP 11 is practically unaffected by ageing, giving it a much longer service life than conventional antifreeze. Dilute with demineralised water to the recommended ratio before use.

#### Specifications

ASTM D3306

DTFR 29C100

MAN 324-NF

MB 325.0

BMW N 600 69.0

Opel/GM QL 130100

Porsche/Audi/Seat/Skoda TL-774C (G11)

Saab/GM 6901 599

#### Typicals

Density at 15 °C, kg/l	1,113
------------------------	-------

Crystallizationpoint: 33 vol%, °C	-22
-----------------------------------	-----

Crystallizationpoint: 40 vol%, °C	-27
-----------------------------------	-----

Crystallizationpoint: 50 vol%, °C	-40
-----------------------------------	-----

Crystallizationpoint: 60 vol%, °C	-56
-----------------------------------	-----

#### Available packagings

35968  
1 L bottle

32954  
5 L can

36142  
208 L drum
