Kroon-Oil Coolant SP 11

Description

Coolant SP 11 is a premium, ready-to-use Long Life coolant (frost protection -37 °C) for which a patented, nitrite-, amine- and phosphate-free technology with very powerful corrosion inhibitors has been used. With this technology, Coolant SP 11 provides longer lasting protection against corrosion than standard antifreeze, so that vulnerable parts such as radiators, water pumps and seals will have a longer service life. Special additives prevent sludge and deposits forming in the radiator, ensuring optimal cooling, even in the long term. Coolant SP 11 is specifically designed for use in engines/radiators made from light metals such as aluminium, magnesium or their alloys.

Application

Coolant SP 11 is a blue/green, ready-to-use coolant for use in a range of models from Mercedes, BMW, Opel and Saab and in a range of models from the VAG group (VW/Audi/Porsche/Seat/Skoda) that require G11 quality. By using powerful corrosion inhibitors, Coolant SP 11 is practically unaffected by ageing, giving it a much longer service life than conventional coolants. Optimal results can only be achieved with a 100% filling.

Specifications

ASTM D3306
BMW N 600 69.0
DTFR 29D100
MAN 324-NF
MB 326.0
Opel/GM QL 130100
Porsche/Audi/Seat/Skoda TL-774C (G11)
Saab/GM 6901 599

Typicals

Density at 15 °C, kg/l	1,077
pH - value	7,6

Available packagings

31216
1 L bottle

31217
5 L can

31239
20 L can

31240
60 L drum

31241
208 L drum
