Putoline Tyre Fitting Lube

Description

Tyre Fitting Lube for use while (un)mounting tyres. It prevents the rubber from tearing and makes sure that the tyre bead is not stretched too much. The pronounced glide effect lowers the pressure and prevents the motorcycle tyre from snapping off. Tyre Fitting Lube has excellent glide and penetration properties and can also be easily used in places that are hard to reach. Dries up cleanly and invisibly, is economical to use and free from silicone.

Instructions for use:

- Shake before use
- When mounting, the tyres must have a temperature of at least 15°C
- Apply spray to the tyre bead and rim flange
- Distribute the product with a lint-free cloth
- Then mount or unmount the tyre

Application

Putoline Oil is a high-quality supplier of a wide range of lubricants and maintenance products. We only supply products for motorised two-wheelers and that makes us unique! Our years of experience, combined with continuous research results in the best price/quality ratio. Manufacturing our own products guarantees a consistently high quality. Putoline Oil, Driven by Technology!
