Putoline E10 Fuel Fighter

Description

E10 Fuel Fighter is a powerful fuel additive. Specifically developed to protect the fuel system against the harmful effects of E10 fuels, which contain 10% bio-ethanol. E10 Fuel Fighter compensates for the adverse effects and prevents engine damage. The product has the following properties:

- Protects the fuel system against corrosion
- Improves the lubricating properties
- Reduces internal friction in the engine
- Reduces fuel consumption
- Cleans injectors and valves: ensures optimum combustion.

Application

Instructions for use:

- Add 0.1% to the petrol (25 ml for 25 litres of fuel)
- The special dosing system on the bottle helps you add the right quantity
