Kroon-Oil Kroon-O-Sol

Description

Kroon-O-Sol is a mineral emulsifiable degreaser, based on a highly refined solvent. Selected substances have been added in order to achieve a good cleaning effect. Kroon-O-Sol removes oils, greases, dirt and other impurities from components, engines, machines, etc.

Kroon-O-Sol is non-aggressive and does not pose a fire risk as it has a high flash point of 70°C.

Application

Apply Kroon-O-Sol to the surface to be cleaned using a brush or spray. After allowing it to soak in for 3 to 5 minutes, the item to be cleaned can be rinsed with running water or a high pressure hose. For smaller items, Kroon-O-Sol can also be used in an immersion process.

NB: Kroon-O-Sol or rinsing water must not be released directly into municipal sewers or surface water. Ensure that the rinsing water is passed through an oil-water separator.

Typicals

Colour	RED
Density at 15 °C, kg/l	0,798
Viscosity 40 °C, mm ² /s	1,60
Flash Point PM, °C	72
Pour Point, °C	-36
pH - 10 % in water	8,0

Available packagings

03308
5 L tin

13008
20 L can
