Kroon-Oil Cleansol Bio

Description

Cleansol Bio is a very powerful, water-based degreaser. It is an almost neutral micro-emulsion and completely free of hydrocarbons. Cleansol Bio is a degreaser free of volatile substances. It poses no risk of fire and no air extraction is needed for use. It therefore evaporates more slowly and is more economical in use. Cleansol Bio does not contain harmful additives, as a result of which the following properties are achieved:

- Non-combustible
- High level of biodegradability
- No rust formation
- Suitable for both ferrous and non-ferrous metals
- Excellent cleaning ability and economic in use
- Can also be used effectively with our parts washer systems, which heat the liquid to 41°C

Application

Instructions for use:

- Use undiluted
- Apply with a brush or atomizer, or by immersing the item concerned
- Leave to soak in
- Rinse with water
- Leave until fully dry/blow dry with compressed air to prevent corrosion The cleaning effect is clearly increased by heating and applying the liquid: Maximum working temperature: 45°C. PLEASE NOTE: Do not release into municipal sewers or surface water after use!

Typicals

Density at 15 °C, kg/l 1,020

Available packagings

33183
20 L can

33186
60 L drum

13219
208 L drum
