Procool R+

Description

Procool R + is a Long Life, OAT Coolant concentrate. For optimal results, mix 5% Procool R + with tap water (1:20 dilution). This product does not provide frost protection! Thanks to its unique formulation, the product has the following properties:

- Provides maximum reliability & low maintenance life of all cooling system parts such as water pumps, seals & hoses
- Advanced corrosion additives
- Reliable stability with all levels of water hardness
- Optimal corrosion protection of all types of metals, including aluminium & magnesium
- Prevents overheating and reduces the operating temperature
- Prevents cavitation
- Environmentally friendly & low toxicity
- Can be used safely on tracks & circuits

Application

For optimal results, mix 5% of Procool R + with tap water (1:20 dilution). This product does not provide frost protection!
