### Putoline ProBike Ultimate Chain Wax

#### Description

ProBike Ultimate Chain Wax is a chain lubricant consisting of an emulsion of wax and water. This allows it to penetrate deep into the chain links and is suitable for open chains.

ProBike Ultimate Chain Wax provides a paper-thin layer of protection, allowing for ultra-smooth operation and reduced chain and gear wear. Repels moisture and dirt.

#### Application

ProBike Ultimate Chain Wax is suitable for derailleur systems, chain and cassettes. Thoroughly clean any parts to be lubricated first with ProBike Optimum Shine. Then apply ProBike Ultimate Chain Wax and remove any surplus product with a lint-free cloth. Regular re-application prevents excessive wear.

Features a convenient twist-and-dose cap for clean, easily-doseable work. Turn the cap a quarter turn and squeeze a drop from the bottle.
