### ATF Dexron II-D

#### Description

ATF Dexron II-D is a premium, automatic transmission oil based on solvent-refined base oils. It is supplemented with additives to achieve the following properties:

- A very high and stable viscosity index
- A very low pour point
- Excellent oxidation stability
- Effective resistance to wear, corrosion and foaming
- Special friction properties
- Does not affect seals and non-ferrous metals

#### Application

ATF Dexron II-D can be used for automatic gearboxes, power steering systems, torque converters and other applications for which General Motors and other constructors recommend a type ATF Dexron II-D oil.
